<ol style="list-style-type: none"> Remove the packing of filter. Put the filter into the product again.  <p>Install the base, rotate and tighten the base in the direction of marked "CLOSE".</p>  <p>Function instruction</p> <p>Standby Mode: When powering on, the product beeps once and enter standby mode. The indicator light flashes.</p> <p>A Auto Mode: When the Control Ball shifts to Auto Mode, the product runs in the Auto mode and the indicator light is always on. The background light has three colors to indicate the air quality.</p>	<p>Blue: Good air, the product runs in the sleep mode. Yellow: Normal air, the product runs in the middle mode. Red: Bad air, the product runs in the high mode.</p> <p>High Mode: When the Control Ball shifts to High Mode, the product runs in the high mode and the indicator light is always on.</p> <p>Sleep Mode: When the Control Ball shifts to Sleep Mode, the product runs in the sleep mode and the indicator light is always on.</p> <p>UV UV Mode: When the Control Ball shifts to UV Mode, press the Control Ball can turn on or turn off UV function.</p> <p>WiFi Function: In the condition of working, press the Control Ball 5s to enter the network configuration state with the background light flashing. After connecting network, the background light is always on.</p> <p>Turn off the reminder of filter replacement. When the background light flashes in orange, it means the filter need to be replaced. Press the Control Ball 5s to turn off the background light of reminder of filter replacement.</p> <p>PM2.5 background light colors: According to the PM2.5 level in the air detected by the PM2.5 module, the background light shows different colors (Blue - Good, Yellow - Normal, Red - Bad).</p>	<h3>05/WiFi operation</h3> <ol style="list-style-type: none"> Scan the QR code to download "Smart Life" APP. You can search "Smart Life" in either APP store or Google Play to install the APP. Open the "mart Life" APP, tap "Register" to register a Smart Life account with your phone number or E-mail. Then sign in the APP.  <p>Add Device:</p> <ol style="list-style-type: none"> Connect your phone to your home network and turn on the bluetooth (select 2.4GHz WiFi network). Open "Smart Life" APP. Click "+" to add device in the homepage. The APP will display 4. "Add Manually" and "Auto Scan". "Auto Scan": when the APP has the corresponding permissions, the product can be automatically discovered. The product need to be in configuration mode and power on state. Add Manually: select the product name, WiFi/Bluetooth mode. <p>Bluetooth configuration: Make sure the WiFi indicator of the product is blinking rapidly. Click Next and wait for the connection(recommended). When "Add 1 device successfully" appears, it means the connection completes and your device will be in your APP list.</p>	<p>Access Point mode(AP mode): click the WiFi quick connection in the upper right corner to select Access Point mode(AP mode). Confirm that the WiFi indicator of the device is blinking slowly, click Next, and enter your home WiFi name and password. Next, click "Go to Connect" to enter the WLAN setting interface in your mobile phone and select the WiFi network named "SmartLife-XXXX" to connect it. Return to the "Smart Life" APP, the connection will start automatically. When "Add 1 device successfully" appears, it means the connection completes and your device will be in your APP list. Now you can control your smart device via your mobile phone APP anytime and anywhere. Make sure your mobile phone and smart device all connect to the network, and to change the router name into SmartLife-XXX.</p> <h3>06/Filter replacement:</h3> <p>When the background light flashes in orange, it means the filter need to be replaced. Please do not use other filter except original filter.</p> <p>Notice:</p> <ul style="list-style-type: none"> Clean the filter regularly. Do not wash or reuse the filter. Ensure the product is unplugged before replacing the filter. Do not use vacuum cleaner to clean the filter. Sterilize the filter in the sun regularly. 	<h3>07/Maintenance</h3> <p>Notice:</p> <ul style="list-style-type: none"> Ensure the product is unplugged before maintenance. Do not immerse the air purifier in water or any liquid. Do not use abrasive, corrosive or flammable cleansers, such as bleach or alcohol, to clean any part of the product. Do not wash the filter. Do not use a vacuum cleaner to clean the filter. <p>Cleaning:</p> <ol style="list-style-type: none"> Ensure the product is power-off and unplugged. Take out the filter and clean the dust on its surface. Use a soft cloth with neutral cleanser to clean the shell, air inlet and air outlet. When the product is dry, install the filter into the product and start to use. <p>Notice: do not drop any water into the product when clean the air outlet.</p> <p>Storage:</p> <ol style="list-style-type: none"> Ensure the product is power-off and tie up the power line. Take out the filter and clean the dust on its surface. Use a soft cloth with neutral cleanser to clean the shell, air inlet and air outlet. After the product is dry, put on a dust cover or bag and store it in a ventilated area away from direct sunlight. If the product is not used for a long time, turn it on for a few minutes from time to time to ensure a good performance of the product. 	<h3>08/PRODUCT FAILURE HANDELING</h3> <table border="1" data-bbox="1877 2162 2188 2536"> <thead> <tr> <th>Situation</th> <th>Reason</th> </tr> </thead> <tbody> <tr> <td>No working</td> <td> <ul style="list-style-type: none"> Is it plugged into a power socket?
